RAPIDCORE

LightPaper
V2.0

Introduction :

If you have been looking around the MasterNode-type Coin market (PoW/MN), you will have noticed that there are many great project ideas proposed. Some of them succeed, others have problems starting and are greatly undervalued. Sometimes, developers become silent for unknown reasons.

The RapidCore Reborn was built for the purpose of reviving those projects with great potential. Projects that have gained interest from the investing and supporting community are listed on our platform.

what the coin is all about :

Provide a platform for sharing and voting for the best new projects

Manage crowdfunding to revive projects in need of development

Participate in hosting masternodes - the easy way !

Profit from great advice provided by members

Revolutionize the future of all crypto users with Marketplace Platform

Expand RapidSpots platform Reality Technology

Our Focuses:

Fast
Which is where you pay a person a specific amount of RAPID and they will get it instantly by using Instant Send technology.

Transparency
Show what we pay for, for example: Listing fees, investments, etc., or development that benefits the Rapic ecosystem.

Community
Everyone gets involved with the future of the coin. Hiring community Membres to create a independent Vendor and successful self-employing income with our platforms

Proof Of Work(POW)
Consensus to maintain our decentralized ledger. This is carried out by mining in our X11 algorithm to solve blocks

Masternode
MN are used to conjunction with PoW to maintain and secure the RAPID blockchain Masternodes are utilized to send RAPIC instant & Privacy Payments,

Proof Of Stake
PoS will start block height 1 450 001, with our platform together to make a offline platform cold staking possible and run blockchain without the need of miners anymore

Rapid Platforms
Our two future Platform will revolutionize the future of all crypto users with our Rapid Core Marketplace Platform and our future RapidSports Expanded Reality Technology. And to show that it is possible to bring a Cryptocurrency to the offline live of the humans and to show that is important for a 3rd gen cryptocurrency

◉ Rapidcore Blockchain Project is a Community Take Over Project.

◉ Dev Team does not have control about premine.

◉ Our Coin will launch without an ICO.

◉ Revenue for the team comes mainly from platform fees.

Rapid Core Technology:

Connect through the Rapid Core Marketplace Platform and the RapidSpots the people in the real world together and bringing the use of a Crypto Coin to the Offline live of the people.

Rapidcore Marketplace Platform:

With our Rapidcore Marketplace Platform we want to bring buyer and seller of products and services from whole world together.

For Buyer:
As a Buyer you can choose customer account when you register on the Rapidcore Marketplace. There you can buy products and services from your country or from whole world, you must pay in BTC or BTC Lightning.

For Seller:
You can open on our marketplace a Vendor Shop when you register your account, where you can sell any kind of product or services.
As a Vendor Owner you need to pay a really small product set in fee in Rapidcore Coin.
And when a Vendor Owner is selling some products he only have to pay 2% platform fee, with Buyer protection the fee is 4%.

The role of Rapidcore Blockchain project : We are developing, hosting, administrate and managing the Rapidcore Marketplace Platform.

Rapidcore Marketplace Platform Community Support Members :

Our Support Worker for our Rapid Core Marketplace Platform we are hiring in our Rapidcore community. We will need from different countries and continents some Support workers for the Rapidcore Marketplace. The Platform Community Support Members can work from home Office. The Rapidcore Support worker will get a monthly Loan.

Important:

You can sell any kind of Legal products, (When its Legal in Germany or Canada) if you want to sell illegal products you will get banned from our Rapidcore Marketplace Platform.

RapidSpot :

RapidSpot is a digital branch dealing with different types of shops, restaurants, companies, government and the most important one, foundations and they all can rent a RapidSpot within all of the Tools and functions of the RAPID Expanded Reality technology.

The real world will be expanded with helpful and very useful digital extra features and Unique Tools via the RapidSpots.

Fairy free fee trading for Buyer & Seller on the Rapid Core Marketplace Platform.

Using all the Premium Vendor Shop functions for free on the RAPID Core Marketplace Platform.

The use of the Buyer Protection function for free on the RAPID Core Market Place.

The Rapidspot will be digitally positioned exactly where the store is located on the Map via GPS tracking and are displayed in the Rapid Expanded Reality App.

RapidSpot PlugIns :

✪ Rapid Marketplace Platform using through the RapidSpot (Free fee Marketplace using/trading/selling/buying, free Buyer protection fee…)

✪ BTC Lightning Network Port.

✪ Plug Ins Developer Room.

✪ Business trade protection service.

✪ Buyer protection feature.

✪ Renting Hash rate.

✪ MasterNode Monitoring.

✪ Coupon exchange for Rapid or BTC from local/regional suppliers/stores/shops...

Sub use cases for startup crowd funding, for social projects, environmental, green electricity

Crowdfunding platform funding for start ups :

With our additional crowdfunding platform, users can post their Vendor Shop funding Project which they need to get funding for the start their business. Everyone from the Rapidcore community can vote for their favorite projects once per funding round. The projects must all have a short business plan and a small roadmap to participate in the voting. The winner will not be paid the full amount at once, but after the progress of the project step by step. We want to prevent certain "exit-scams".

## Rapidcore Social Entrepreneur Projects investing platform:

With our Rapidcore Social Entrepreneur Projects investing platform, users ca post their social project which they need to get funding for start their social project. Everyone from the Rapidcore community can vote for their favorite projects once per funding round.

The social projects which allowed to participate in the social entrepreneur investing platform, must work on a fully social mentality and mindset.

Rapidcore National parks around the world:

With some percentage of our platform revenue we will buy land to create their Rapidcore National parks where animals can have a peaceful live.

Rapidcore schools for children and teachers building around the world:

Educate teachers around the world and building Rapidcore schools for children's and hiring the own educated teachers to teach the children's in the Rapidcore schools all over the world. All on German standards, the teachers will get a monthly Loan.

Creating a Canadian company and Germany Foundation:

Starting to get in contact with Lawyers in Canada and Germany to start the process of figuring out the best company combination to integrate the Rapidcore Blockchain Project in a legal and official company form.

We prefer a Canadian company and Germany Foundation combination.

Canada company because:

✪ Has fully cheap electricity for green mining since 1965.

✪ One of the opens and most understanding crypto and Blockchain knowledge.

✪ One of the best crypto laws in the world.

Germany foundation because:

✪ Only one-point Germany has the best foundation Law in the world. Open a ''Hybridstiftung'' the first and only crypto company which opened. this exotic type of foundation in Germany was doing from IOTA 2017 in Berlin.

RoadMap:

Q1 2019
